# Illinois Environmental Protection Agency Annual Facility Inspection Report

for General Permit for Discharges from Small MS4s

Village of Oswego Permit No. ILR40 Permit Year 16: March 1, 2018 to February 28, 2019

# **Contents**

Part A. Changes to Best Management Practices	A-1
Part B. Status of Compliance with Permit Conditions	B-1
Part C. Information and Data Collection Results	C-1
Part D. Summary of Year 16 Stormwater Activities	D-1
Part E. Notice of Qualifying Local Program	E-1
Part E1. QLP Changes to Best Management Practices, Year 16	
Part E2. QLP Status of Compliance with Permit Conditions, Year 16	
Part E3. QLP Information and Data Collection Results, Year 16	
Part E4. QLP Summary of Year 17 Stormwater Activities	
Part E5. QLP Construction Projects Conducted During Year 16	
Part F. Construction Projects Conducted During Year 16	F-1

Table of Contents i

# Part A. MS4 Changes to Best Management Practices, Year 16

Information regarding the status of all of the BMPs and measurable goals described in the MS4's SMPP is provided in the following table.

Note: "X" indicates BMPs that were implemented in accordance with the MS4's SMPP

✓ indicates BMPs that were changed during Year 16

Additional information about the changes that were made to the BMPs described in the MS4's SMPP during Year 16 is provided below.

#### A. 4 Community Event

#### Measurable Goal(s):

Support and publicize ECO efforts.

#### Year 16 MS4 activities:

- The Environmental Conscious Oswego (ECO) Commission disbanded in 2018. The Public Works Department will take over the responsibilities for hosting future recycling and e-waste collection events.
- Maintaining focus on environmental issues, the Village created an internal "Green Team" which meets several times a year to review both internal and external environmental initiatives.
- The Village updated the SMPP to address these changes.

# Part B. MS4 Status of Compliance with Permit Conditions, Year 16

## Stormwater Management Activities, Year 16

The stormwater management activities that the MS4 performed during Year 16, including the MS4's BMPs and measurable goals, are described in detail in the MS4's SMPP. A concise summary of the status of the MS4's stormwater management program, as of the end of Year 16, is provided below. A copy of the annual tracking form is included at the end of Part B of this report. The MS4's SMPP can be viewed at <a href="https://www.oswegoil.org">www.oswegoil.org</a>.

#### A. Public Education and Outreach

## Measurable Goal(s):

 Implement BMPs and track progress of BMP implementation, as described in the SMPP.

#### Year 16 MS4 activities:

• The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

# B. Public Participation/Involvement B.4 Public Hearing

#### Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- The Village will conduct a public meeting or public hearing discussing its Stormwater management plan or Stormwater pollution. The Village will meet its own requirements for conducting public meetings or hearings.

# Year 16 MS4 activities:

• The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

## C. Illicit Discharge Detection and Elimination

#### Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP
- Add any new or remove any stormwater outfalls as needed after inspections Year 16 MS4 activities:
- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

#### **D.** Construction Site Runoff Control

#### Measurable Goal(s):

• Implement BMPs and track progress of BMP implementation, as described in the SMPP.

- Enforce all applicable regulations to ensure that all applicable developments comply. Year 16 MS4 activities:
- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.
- The MS4 continues to enforce all applicable regulations to ensure that all applicable developments comply.

#### E. Post-Construction Runoff Control

#### Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Enforce all applicable regulations to ensure that all applicable developments comply. Year 16 MS4 activities:
- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.
- The MS4 continues to enforce all applicable regulations to ensure that all applicable developments comply.

## F. Pollution Prevention/Good Housekeeping

#### Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- We conducted annual training for staff.

#### Year 16 MS4 activities:

• The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

Stormwater Management Program Assessment, Year 16

An overall assessment of the MS4's stormwater management program and the appropriateness of its BMPs is provided below.

The MS4 revised their SMPP to coincide with the April 2016 ILR40 permit. As described in the revised SMPP there are extensive monitoring efforts already underway across Kendall County, refer to Part C of this report for additional information. As an active MS4 within the county, the countywide findings reflect the individual efforts of each MS4. Additionally, the SMPP identified impaired waters based on the July 2016 303(d) list and the draft 2018 Impaired Waters List. The inclusion or exclusion of water bodies on the IEPAs 303(d) list, published bi-annually, is a direct reflection of the program's effectiveness. Data collected shows decreasing trends at Station ID 27 Fox River at Montgomery (immediately upstream of Oswego) and at Station ID 34 Fox river at Yorkville (immediately downstream of Oswego).

# Part C. MS4 Information and Data Collection Results, Year 16

#### **Annual Monitoring and Data Collection, Year 16**

Information and data that the MS4 collected to meet the monitoring requirement of the version of IEPA's General NPDES Permit No. ILR40 that applied to the reporting period are summarized below.

The MS4 revised their SMPP to coincide with the April 2016 ILR40 permit. As described in the revised SMPP there are extensive monitoring efforts already underway across the County. The MS4 is located in the Fox River Study Group (FRSG) and the Fox Metro Water Reclamation District (Fox Metro). The QLP section of the report describes the status of Kendall County waters using information gathered by these workgroups, the FRSG, Fox Metro, and IEPA. Following is a summary of the efforts described in more detail in the SMPP.

- The Fox Metro Water Reclamation District (Fox Metro) conducts sampling of the Fox River upstream of the MS4 and at the Orchard Road Bridge on the downstream edge of the corporate limits.
- Walter E. Deuchler Associates, on behalf of Fox Metro, has sampled (grab samples) at the bridges located on Sullivan Road, North Avenue, Ashland Avenue and Route 34.
- Oswego. The Fox River Study Group has sampled (grab samples) at the bridges located on Mill Street and Route 47. These sample locations are sampled monthly and analyzed for BOD, TSS, fecal coliforms, TKN, ammonia, nitrate N, organic nitrogen, chlorophyll A, total phosphorus, chloride and turbidity as well as field parameters including: temperature, pH, conductivity and DO.
- WEDA also collects data with sondes (continuous sampling) at Sullivan Road, Route 30, Route 34, and Orchard Road. These parameters include DO, pH, temperature and conductivity.
- WEDA also has metals data that was FOIA'd from IEPA for the YBSD local limit report. The closest stations are Route 34 and Mill Street in Montgomery.

There were no noticeable increases in these water quality parameters between the upstream and downstream sampling points. However, the overall water quality trend is improving.

# Part D. MS4 Summary of Year 17 Stormwater Activities

The table below indicates the stormwater management activities that the MS4 plans to undertake during Year 16. Additional information about the stormwater management activities that the MS4 will perform is provided in the section following the table.

Note: "X" indicates BMPs that will be implemented during Year 16

### **Stormwater Management Activities, Year 17**

During Year 17, the MS4 plans to continue to support and supplement QLP efforts, as described in detail in the MS4's SMPP and in brief below. The MS4's SMPP can be viewed at www.oswegoil.org.

#### A. Public Education and Outreach

The MS4 utilizes a variety of methods to educate and provide outreach to the public about the importance of managing pollutants that potentially could enter the stormwater system. The MS4's Public Education and Outreach program includes: the distribution of educational material via take-away racks, municipal newsletters, website, at outreach events and by supporting efforts of the Environmental Conscious Oswego Commission (ECO).

## Measurable Goal(s):

 Implement BMPs and track progress of BMP implementation, as described in the SMPP.

#### B. Public Participation/Involvement

The MS4 utilizes a variety of methods to allow input from citizens during the development and implementation of the SMPP. The MS4's Public Participation/Involvement program includes: maintaining a process for receiving and processing citizen input/complaints; attending and publicizing stakeholder meetings, identification of environmental justice areas, and presenting program information at a public meeting at least once annually.

#### Measurable Goal(s):

 Implement BMPs and track progress of BMP implementation, as described in the SMPP.

#### C. Illicit Discharge Detection and Elimination

The MS4 will conduct activities toward the identification and removal of direct connections of pollutants into the storm water management systems (including wetlands and receiving waters). The program includes the following primary components.

- An outfall map showing the locations of outfalls and the names and locations of all waters that receive discharges from those outfalls;
- An ordinance that prohibits all non-storm water discharges into the storm sewer system and provides the authority for appropriate enforcement procedures and actions;
- A plan to detect and address all non-stormwater discharges, into the storm sewer system;
- Periodic inspection of outfalls for detection of non-stormwater discharges and illegal dumping (5-yr rescreening schedule).
- Annual inspection of all High Priority Outfalls.

#### Measurable Goal(s):

 Implement BMPs and track progress of BMP implementation, as described in the SMPP.

#### **D.** Construction Site Runoff Control

Kendall County has adopted a Kendall County Stormwater Management Ordinance (KCSMO) that establishes the minimum stormwater management requirements for development in Kendall County. The KCSMO establishes countywide standards for runoff maintenance, detention sites, soil erosion and sediment control, inspections, water quality, wetlands and floodplains. The KCSMO is administered and enforced within the community by the MS4. The MS4 has also adopted the following regulations:

Village of Oswego Floodplain Ordinance

Village of Oswego Stream and Wetland Protection Ordinance

Village of Oswego Subdivision and Development Control Regulations

Village of Oswego Discharge Detection and Elimination Ordinance

#### Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Enforce all applicable regulations to ensure that all applicable developments comply.

#### E. Post-Construction Runoff Control

As described above, the countywide and MS4 regulations establish the minimum stormwater management requirements for development in Kendall County. These regulations establish BMP standards to implement stormwater management strategies that minimize increases in stormwater runoff rates, volumes, and pollutant loads from development sites. The SMPP also includes inspection procedures for pre-KCSMO developments, streambanks and shorelines, streambeds, and detention/retention ponds.

#### Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Enforce all applicable regulations to ensure that all applicable developments comply.

## F. Pollution Prevention/Good Housekeeping

The MS4 is committed to implementing the Pollution Prevention/Good Housekeeping component of its SMPP. The MS4 is responsible for the care and upkeep of the general facilities, municipal roads, its general facilities and associated maintenance yards. The MS4's Pollution Prevention/Good Housekeeping program includes: the evaluation and improvement of municipal policies and procedures to reduce the discharge of pollutants from municipal activities and operations; and, a training program for municipal employees.

#### Measurable Goal(s):

 Implement BMPs and track progress of BMP implementation, as described in the SMPP.

# Part E. Notice of Qualifying Local Program

Kendall County serves as a Qualifying Local Program (QLP) for MS4s in Kendall County. In accordance with IEPA's General NPDES Permit No. ILR40, as a QLP, Kendall County performs activities related to each of the six minimum control measures. The MS4 is not taking credit for activities performed by the QLP.

Part F. MS4 Construction Projects Conducted During Year 16

Project	Project Size	Construction	Construction
Name	(acres)	Start Date	End Date
Oswego Public Safety Campus	21.96	May 2017	October 2018
Annual Road Maintenance Project	0.27	Sept. 2018	Oct. 2018
