Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.

Report Period: From March, 2023 To March, 2024

Permit No. ILR40 00415

MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: Village of Oswego Mailing Address 1: 100 Parkers Mill

Mailing Address 2: _____ County: Kendall

City: Oswego State: IL Zip: 60543 Telephone: 630-551-2366

Contact Person: Jennifer Hughes, Public Works Director Email Address: jhughes@oswegoil.org
(Person responsible for Annual Report)

Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

Village of Oswego

THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

- | | | | |
|--|--------------------------|---|--------------------------|
| 1. Public Education and Outreach | <input type="checkbox"/> | 4. Construction Site Runoff Control | <input type="checkbox"/> |
| 2. Public Participation/Involvement | <input type="checkbox"/> | 5. Post-Construction Runoff Control | <input type="checkbox"/> |
| 3. Illicit Discharge Detection & Elimination | <input type="checkbox"/> | 6. Pollution Prevention/Good Housekeeping | <input type="checkbox"/> |

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

This MS4 Program during the reporting year 3/2023-2/2024 for this Annual Facility Inspection Report: - MS4 did not make any changes to Best Management Practices identified in the Notice of Intent submitted in 2021 for Permit No. ILR400415

Part B. MS4 Status of Compliance with Permit Conditions, Year 21

Stormwater Management Activities, Year 21

The stormwater management activities that the MS4 performed during Year 21 including the MS4's BMPs and measurable goals, are described in detail in the MS4's SMPP. A concise summary of the status of the MS4's stormwater management program, as of the end of Year 21, is provided below.

- The SMPP for this MS4 Program can be viewed at the following link: <https://www.oswegoil.org/home/showpublisheddocument/366/637386625885770000>.
- The NOI for this MS4 Program can be viewed at the following link: <https://www.oswegoil.org/home/showpublisheddocument/4578/637763881773630000>.
- The previous five years of Annual Reports for this MS4 Program can be viewed at the following link: <https://www.oswegoil.org/business/open-your-business/development-services/stormwater>.

This MS4's NPDES program was audited during the reporting year 3/2021-2/2022 by the Illinois Environmental Protection Agency. The MS4 was verbally informed that the audit was closed out with no concerns or violations.

A. Public Education and Outreach

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

Year 21 MS4 activities:

- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

B. Public Participation/Involvement

B.4 Public Hearing

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- The Village will conduct a public meeting or public hearing discussing its Stormwater management plan or Stormwater pollution. The Village will meet its own requirements for conducting public meetings or hearings.

Year 21 MS4 activities:

- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program. The Year 20 Annual Facility Inspection Report was presented to the Village Board for public comment on

March 21, 2023. Year 21 Annual report is being presented to the Board on May 28, 2024.

C. Illicit Discharge Detection and Elimination

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Add new or remove stormwater outfalls as needed after inspections.

Year 21 MS4 activities:

- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

D. Construction Site Runoff Control

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Enforce all applicable regulations to ensure that all applicable developments comply.

Year 21 MS4 activities:

- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.
- The MS4 continues to enforce all applicable regulations to ensure that all applicable developments comply.

E. Post-Construction Runoff Control

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Enforce all applicable regulations to ensure that all applicable developments comply.

Year 21 MS4 activities:

- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.
- The MS4 continues to enforce all applicable regulations to ensure that all applicable developments comply.

F. Pollution Prevention/Good Housekeeping

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- We conduct annual training for staff.

Year 21 MS4 activities:

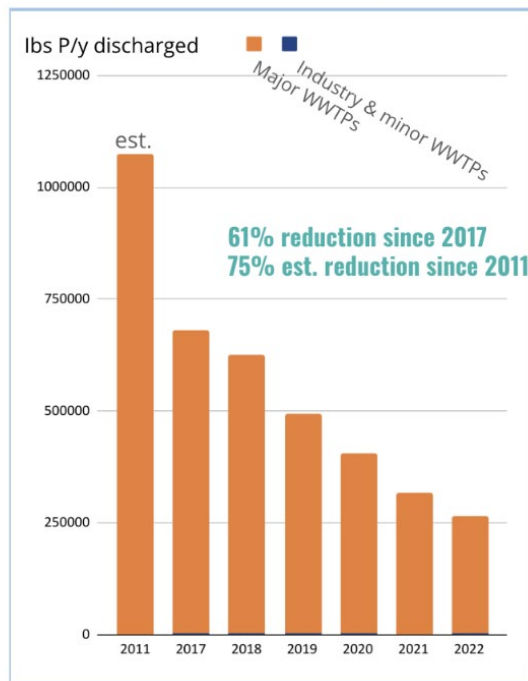

- The MS4 continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

Stormwater Management Program Assessment, Year 21

An overall assessment of the MS4's stormwater management program and the appropriateness of its BMPs is provided below.

The MS4 revised their SMPP to coincide with the March 2016 ILR40 permit. As described in the revised SMPP there are extensive monitoring efforts across Kendall County. Refer to Part C of this report for additional information. As an active MS4 within the county, the countywide findings reflect the individual efforts of each MS4. Additionally, the SMPP identified impaired waters based on the July 2016 303(d) list and the draft 2018 Impaired Waters List. The inclusion or exclusion of water bodies on the IEPAs 303(d) list, published bi-annually, is a direct reflection of the program's effectiveness. Most of the data from a 2019 report showed decreasing trends at Station ID 27 Fox River at Montgomery (immediately upstream of Oswego) and at Station ID 34 Fox river at Yorkville (immediately downstream of Oswego). The decrease in pH and Dissolved Oxygen are being addressed through a recent plant expansion designed to treat for phosphorous at the Fox Metro Water Reclamation District. The table below is the most recent trend data provided. Up to date testing information can be found at <https://www.foxriverstudygroup.org/>.

Wastewater Total Phosphorus Reductions in the Fox River Watershed

Source: 2023 IEPA Annual Report, Fox River Study Group, page 5.

Part C. MS4 Information and Data Collection Results, Year 21

Annual Monitoring and Data Collection, Year 21

Information and data that the MS4 collected to meet the monitoring requirement of the version of IEPA's General NPDES Permit No. ILR40 that applied to the reporting period are summarized below.

As described in the SMPP, there are extensive monitoring efforts already underway across the County. The MS4 is located in the Fox River Study Group (FRSG) and the Fox Metro Water Reclamation District (Fox Metro). The QLP section of the report describes the status of Kendall County waters using information gathered by these workgroups, the FRSG, Fox Metro, and IEPA. Following is a summary of the efforts described in more detail in the SMPP.

- The Fox River Study Group collects monthly samples at seven mainstream and seven tributary locations between McHenry and Yorkville. These monthly and analyzed for BOD, TSS, fecal coliforms, TKN, ammonia, nitrate N, organic nitrogen, chlorophyll A, total phosphorus, chloride and turbidity as well as field parameters including: temperature, pH, conductivity and DO.
- Fehr Graham, on behalf of Fox Metro Water Reclamation District, collects data with sondes (continuous monitoring) at Sullivan Road, Route 30, Route 34, and Orchard Road. The parameters collected include Dissolved Oxygen, pH, temperature, conductivity, and total algae.
- Fehr Graham Engineering and Environmental, on behalf of the City of Aurora, collects quarterly samples at bridges located at Sullivan Road, North Avenue, and Ashland Avenue along the Fox River. These samples are analyzed for CBOD, TSS, TKN, Ammonia, Nitrate, Nitrite, Organic Nitrogen, TP, Chloride, Chlorophyll a, and Fecal Coliform.

The MS4 will review their SMPP and update as needed with the issuance of the new ILR40 permit.

Part D. MS4 Summary of Year 22 Stormwater Activities

The table below indicates the stormwater management activities that the MS4 plans to undertake during Year 21. Additional information about the stormwater management activities that the MS4 will perform is provided in the section following the table.

Note: “X” indicates BMPs that will be implemented during Year 22

Stormwater Management Activities, Year 22

- During Year 22, the MS4 plans to continue to support and supplement QLP efforts, as described in detail in the MS4’s SMPP and in brief below. The MS4’s SMPP and the previous five years of Annual Reports can be viewed at www.oswegoil.org.

A. Public Education and Outreach

The MS4 utilizes a variety of methods to educate and provide outreach to the public about the importance of managing pollutants that potentially could enter the stormwater

system. The MS4's Public Education and Outreach program includes: the distribution of educational material via take-away racks, municipal newsletters, website, and at outreach events.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

B. Public Participation/Involvement

The MS4 utilizes a variety of methods to allow input from citizens during the development and implementation of the SMPP. The MS4's Public Participation/Involvement program includes: maintaining a process for receiving and processing citizen input/complaints; attending and publicizing stakeholder meetings, identification of environmental justice areas, and presenting program information at a public meeting at least once annually.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

C. Illicit Discharge Detection and Elimination

The MS4 will conduct activities toward the identification and removal of direct connections of pollutants into the storm water management systems (including wetlands and receiving waters). The program includes the following primary components.

- An outfall map showing the locations of outfalls and the names and locations of all waters that receive discharges from those outfalls;
- An ordinance that prohibits all non-storm water discharges into the storm sewer system and provides the authority for appropriate enforcement procedures and actions;
- A plan to detect and address all non-stormwater discharges, into the storm sewer system;
- Periodic inspection of outfalls for detection of non-stormwater discharges and illegal dumping (5-yr rescreening schedule).
- Annual inspection of all High Priority Outfalls.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

D. Construction Site Runoff Control

Kendall County has adopted a Kendall County Stormwater Management Ordinance (KCSMO) that establishes the minimum stormwater management requirements for development in Kendall County. The KCSMO establishes countywide standards for runoff maintenance, detention sites, soil erosion and sediment control, inspections, water quality, wetlands and floodplains. Updates may be made during the next reporting year.

The Village will review and ensure its code is updated accordingly. The KCSMO is administered and enforced within the community by the MS4. The MS4 has also adopted the following regulations:

- [Village of Oswego Floodplain Ordinance](#)
- [Village of Oswego Stream and Wetland Protection Ordinance](#)
- [Village of Oswego Subdivision and Development Control Regulations](#)
- [Village of Oswego Discharge Detection and Elimination Ordinance](#)

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Enforce all applicable regulations to ensure that all applicable developments comply.

E. Post-Construction Runoff Control

As described above, countywide and MS4 regulations establish the minimum stormwater management requirements for development in Kendall County. These regulations establish BMP standards to implement stormwater management strategies that minimize increases in stormwater runoff rates, volumes, and pollutant loads from development sites. The SMPP also includes inspection procedures for pre-KCSMO developments, streambanks and shorelines, streambeds, and detention/retention ponds.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Enforce all applicable regulations to ensure that all applicable developments comply.

F. Pollution Prevention/Good Housekeeping

The MS4 is committed to implementing the Pollution Prevention/Good Housekeeping component of its SMPP. The MS4 is responsible for the care and upkeep of the general facilities, municipal roads, its general facilities and associated maintenance yards. The MS4's Pollution Prevention/Good Housekeeping program includes: the evaluation and improvement of municipal policies and procedures to reduce the discharge of pollutants from municipal activities and operations; and, a training program for municipal employees.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

Part E. Notice of Qualifying Local Program

Kendall County serves as a Qualifying Local Program (QLP) for MS4s in Kendall County. In accordance with IEPA’s General NPDES Permit No. ILR40, as a QLP, Kendall County performs activities related to each of the six minimum control measures. The MS4 is not taking credit for activities performed by the QLP.

Part F. MS4 Construction Projects Conducted During Year 21

Project Name	Project Size (acres)	Construction Start Date	Construction End Date
Wolfs Crossing at Harvey Road- Roundabout & Watermain	15.68	2/20/23	ongoing
Van Buren Watermain Replacement Project	2.10	6/26/23	12/7/23
Downtown Traffic Signals	0.1	3/16/23	3/12/24
Road Resurfacing	3.23	6/19/23	10/6/23
