November 30, 2023

**Village of Oswego**  
**Monthly Financial Report**  
**For the Period Ending November 30, 2023**

Fiscal year total revenues for all Funds exceed total expenditures for all Funds by \$11.3 million. This is attributed to revenue coming in as scheduled while large capital costs have not yet occurred as well as positive year to date returns in the Police Pension Fund. The following table shows the monthly revenues and expenditures recorded through November for each Fund and a comparison to the budget.

- % of budget is "n/a" for non-budgeted funds

Four Funds have greater expenditures compared to revenues. Motor Fuel Tax revenues comes in throughout the year, while expenditures occur exclusively in summer and fall. The TIF Fund, Water & Sewer Capital Fund and Municipal Fleet Funds have a budgeted deficit, so the deficit in these funds is expected.

## Sales tax

The following graph details historical sales tax revenues based on the month the sale occurred. The current fiscal year reflects the month the revenue was received. The Village receives sales tax revenue in the third month following the point of sale. For example, the sales tax paid on purchases made in August 2023 was due to the State from retailers in September 2023. The State paid the Village its share in November 2023.

- Sales tax revenue for the month of November was \$26,584 greater than last year. Fiscal year to date sales tax revenue is (\$35,772), 0.7% less than last year. Inflation is a contributing factor to the overall decrease, resulting in decreased spending.

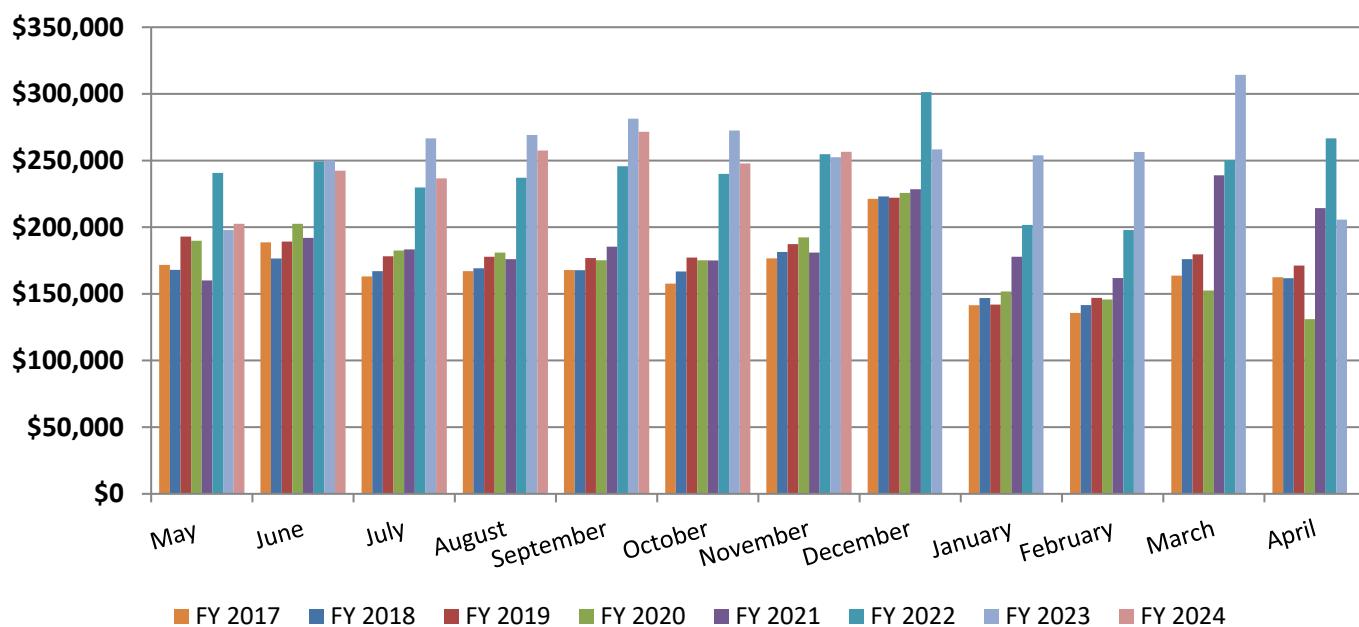

A comparison of sales tax revenue fiscal year to date through November for the previous ten years depicts an annual increasing trend. Sales tax revenue has been increasing year over year due to the new online sales tax, increase in population, and good local economy with residents and non residents spending within the community. Overall sales tax revenue for the year is expected to be similar to last year.

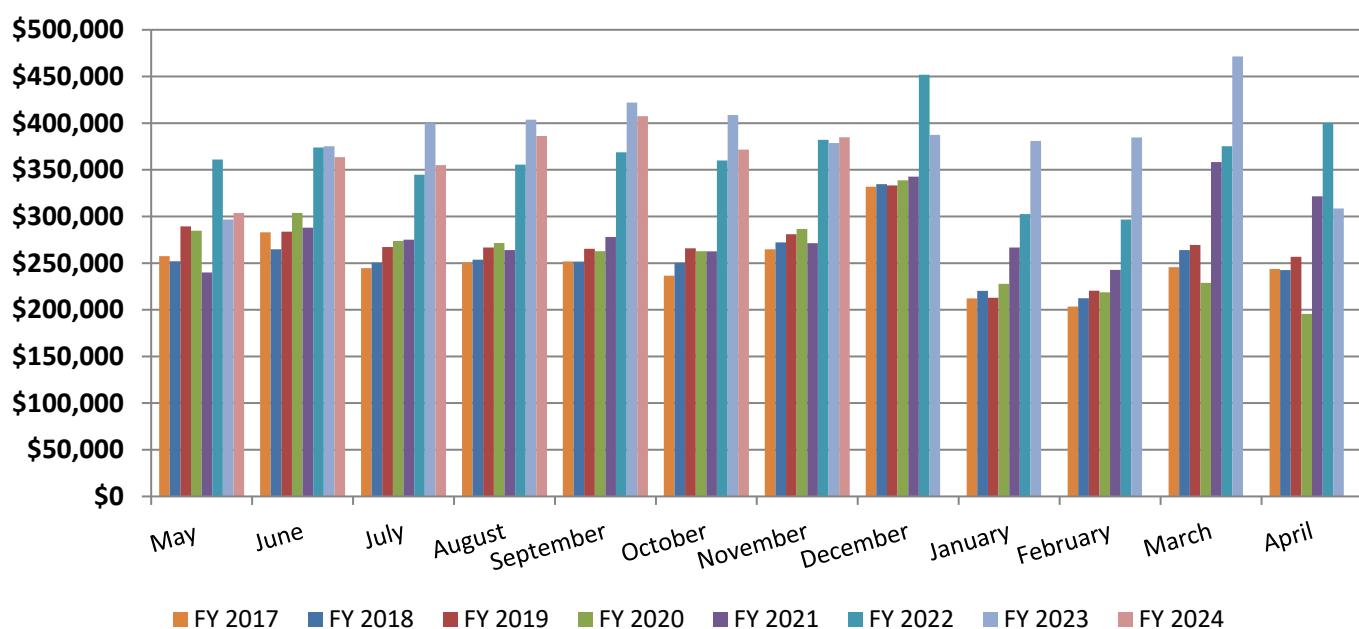

## Local Home Rule Sales Tax

Fiscal Year to date receipts were (\$85,980), 1.9%, less than last year. The following two charts display the half percent home rule sales tax allocated to the General Fund and the three quarters percent allocated to the Capital Improvement Fund. The data is demonstrated month over month, by fiscal year. Inflation is a contributing factor to the overall decrease.

### Local Sales Tax - General Fund

### Local Sales Tax - Capital Improvement Fund

**Income Tax** - The following chart compares fiscal year-to-date 2018 through 2023 actual income tax receipts compared to fiscal year-to-date receipts for FY 2024. Fiscal year 2024 receipts through November were (\$64,508), 1.9%, less than last year. Receipts from May 2023 were an anomaly due to timing of tax payments the previous year. Excluding the anomaly month, overall receipts are up.

**Utility Taxes** - The Village collects utility taxes on the “use” of three utilities: natural gas, electricity, and telecommunications. The rates for each tax are: 3% of gross receipts for natural gas, 6.0% of gross charges for telecommunications, and a tiered kilowatt-hour use rate for electricity equivalent to 3.0% of gross charges.

- Telecommunications tax receipts continue to decline year over year. Receipts for the month of November were (\$2,431), 9.2%, less than last year. Year to date receipts were (\$6,413), 3.5% less than last year.
- Electricity tax receipts for the month of November were \$4,379, 9.8%, greater than last year. Year to date receipts were (\$12,357), 3.0% less than last year.
- Natural gas receipts for the month of November were (\$18,106), 46.6% less than last year. This is weather related. Year to date receipts were \$9,790, 6.4% greater than last year.

**Permit Fees** – The Village classifies permit revenue into several categories. The main categories are Building Permits, Sign Permits and Accessory Permits. Overall revenue for these main categories was \$501,680, 129%, greater than last year. Contractor Registration fees were discontinued in Fiscal Year 2024 which had a minor impact on overall permit fee revenue but significantly improved efficiencies.

- Building permit revenue was \$283,370, 239%, greater than last year.
- Sign permit revenue was (\$3,984), 69%, less than last year.
- Accessory permit revenue was \$278,744, 133%, greater than last year.

## General Fund Department % of Expenditure Budget Spent

Expenditures are categorized for comparison purposes. The timing of actual expenditures by departments varies from year to year causing some categories to exceed the benchmark in any given month. The benchmark for November was 58% of budget.

Spending Benchmark = 58%										

- **General Fund Summary:** overall expenditures met the target of 57%.
- **Administration:** department was at 55% of budget. Contractual services trended over budget due to Utility Rebates being paid unevenly throughout the year. Other Services trended over budget due to most of the travel and training occurring in the first half of the year. Operating supplies trended over budget due to an annual subscription being paid in full in May.
- **Community relations:** department was at 45% of budget. The Village's donation toward decorative bike racks was paid out of the Other Financing Uses category. This onetime expense being paid early in the year is causing the account to temporarily trend over budget.
- **Building & permitting:** department was at 53% of budget. Other services exceed target due to departmental general insurance costs being greater than expected.
- **Development services:** department was at 48% of budget. Health insurance is trending over budget due to employee turnover with new employees taking a higher level of coverage than the employee they replaced.
- **Economic development:** department was at 48% of budget. Other Services trended over budget due to most of travel and training occurring in the first half of the year.
- **Finance department:** department was at 58% of budget. Professional Services exceeded the target due to annual audit charge being paid. Other Services trended over budget due to most of travel and training occurring in the first half of the year.
- **Information technology:** department was 56% of budget. Salaries were over budget due to annual increases and bonuses being greater than anticipated. Contractual Services exceed the benchmark due to many annual subscriptions paid out early in the year. Operating Supplies exceeded the budget target due to one-time purchases. This will level out as the year proceeds.
- **Police department:** department was at 62% of budget. The Village's contribution to the Police Pension Fund is accounted for in the Insurance and Benefits line. This revenue from property tax receipts is received and paid to the fund early in the year causing the account to temporarily trend over budget. Annual dispatch costs are paid from the Professional Services line in May which causes this lend to temporarily trend over budget.
- **Public Works:** department was at 46% of budget. Mosquito Control for the year was paid out in late fall causing the Other Services category to temporarily trend over budget.

The pages following this summary will provide a view of each Fund's compiled revenue and expenditure activity for the reporting month, as well as fiscal year-to-date activity, and the Funds' performance as compared to the total budget of each Fund.

# Monthly Market Review

Fixed Income | November 2023

Information provided by Illinois Trust's Investment Adviser PFM Asset Management LLC

## "Pause, Pauser, Pausing, Paused...Passé?"

### Economic Highlights

- The Federal Reserve (Fed) held the benchmark overnight target rate unchanged at its current range of 5.25% to 5.50% at the conclusion of its meeting on November 1. Fed officials have now skipped a rate hike for two consecutive meetings. The Fed noted that while job gains have moderated, the labor market remains strong, while also noting inflation remains elevated. Fed Chair Jerome Powell characterized policy risks as "getting more balanced." The market's response was to price out any further rate hikes and pull forward the first potential rate cut in 2024.
- The October employment report came in below estimates as non-farm payrolls increased by only 150,000. The unemployment rate ticked up to 3.9% from 3.8% the prior month and a cycle low of 3.4% in April. The labor force participation rate inched lower (to 62.7%), the first monthly decline since October 2022. The Fed's goal of loosening the labor market appears on track.
- The Consumer Price Index (CPI) for September increased 3.7% on a year-over-year basis. Core CPI (which excludes volatile food and energy prices) increased 4.1% over the past 12 months. Although still firmly above the 2% target set by the Fed, core inflation has continued to trend lower.
- The advance estimate of U.S. real gross domestic product (GDP) showed economic growth increased at an annual rate of 4.9% in the third quarter, firmly beating surveys and more than doubling the 2.1% rise in the second quarter. This reflected increases in most categories, except business equipment spending. Consumer spending was particularly strong at 4% growth, but 1.3% of overall GDP was from increases in inventories, which are usually reversed over time.
- A myriad of headwinds are mounting, including still-elevated prices, the resumption of student loan payments, stock market volatility and near 8% mortgage rates. Coupled with declining real household income and lower personal savings rates, the consumer's willingness to continue spending will be key to achieving a 'soft landing'.
- The federal budget deficit for fiscal year 2023 was \$1.7 trillion, a 23% increase from the prior year. Total outlays fell, but revenues declined by more as individual income tax fell by 17%. Net interest on the public debt increased by \$177 billion. The U.S. Treasury announced it expects funding needs for the next six months to be \$1.59 trillion, representing a reduction relative to its initial estimates.

### Bond Markets

- U.S. Treasury yields finished higher across the curve in October. The 30-year bond led the way, increasing 39 basis points (bps) over the month to finish at 5.09%. The benchmark 2-, 5-, and 10-year U.S. Treasuries finished the month at 5.09%, 4.85%, and 4.93%, moving up 4, 24, and 36 bps, respectively.

- As a result, the curve steepened (became less inverted) as the spread between the 10- and 2-year U.S. Treasury notes ended the month at -16 bps, the narrowest inversion over the past year.
- Yield increases on longer maturities led longer duration strategies to underperform notably. In October, the ICE BofA 2-, 5-, and 10-year Treasury indices returned 0.33%, -0.55%, and -2.22%, respectively.
- Market-wide de-risking themes from the last week of September carried through October, pushing yield spreads wider across most fixed income asset classes. As a result, diversification away from U.S. Treasuries was generally a detractor from portfolio performance as excess returns were firmly in the red.

### Equity Markets

- Equities finished the month negative as prices continued to trend lower from July highs. The S&P 500 and Nasdaq wrapped up their worst October since 2018. The S&P 500 fell 2.1%, the Dow Jones Industrials fell 1.3%, while the Nasdaq declined by 2.8%. International stocks fared worse, with the MSCI ACWI ex-US index falling 4.1%.
- After two months of steep increases, the U.S. dollar Index (DXY) gained a modest 0.5% in October as markets priced for an extended Fed pause.

### PFMAM Strategy Recap

- With the Fed at or very near the end of its current hiking cycle, economic data showing some softening, and the yield curve steepening beyond three years, we plan to bring portfolio durations closer to benchmarks. However, given the curve is still inverted out to five years, we will do so cautiously.
- Value in agencies, supranationals and municipals remains quite limited. Spreads are on the tighter end of their recent ranges and issuance has been light.
- Corporates underperformed in October as spreads increased to six-month highs. Good fundamentals, high yields, wider spreads and a positive economic outlook support a constructive view on the sector.
- The asset-backed security (ABS) sector underperformed in October, as spreads are now near their March wides. AAA-rated senior tranches offer good risk/return value.
- Mortgage-backed securities (MBS) have underperformed badly this cycle but are now at the cheapest spread levels in a long time. Agency CMBS continues to offer value.
- Money market credit yields (commercial paper and bank certificates of deposit) continue to hover near 6% in 9- to 12-month maturities, offering strong income potential.
